CONTENTS OF VOLUME 79

No. 1, January 1990

Editorial v

R. E. Barrow (U.S.A.): Chemical structure of phospholipids in the lungs and airways of sheep 1

M. Miyano, M. Nakamura, M. Yamaya, T. Fukushima, K. Sekizawa, H. Sasaki and T. Takishima (Japan): Series distribution of mucociliary clearance of magnetized iron particles in anesthetized dogs 9

W. R. Clarke, G. Gause, B. E. Marshall and S. Cassin (U.S.A.): The role of lung perfusate P_{O_2} in the control of the pulmonary vascular resistance of exteriorized fetal lambs 19

J. W. Anderson, F. B. Sant'Ambrogio, O. P. Mathew and G. Sant'Ambrogio (U.S.A.): Water-responsive laryngeal receptors in the dog are not specialized endings 33

E. Takahashi, A. S. Menon, H. Kato, A. S. Slutsky and E. A. Phillipson (Canada): Control of expiratory duration by arterial CO_2 oscillations in vagotomized dogs 45

C. D. Shee and I. R. Cameron (U.K.): The effect of pH and hypoxia on function and intracellular pH of the rat diaphragm 57

M. Samaja, E. Rovida, R. Motterlini, M. Tarantola, A. Rubinacci and P. E. diPrampero (Italy): Human red cell age, oxygen affinity and oxygen transport 69

B. Fiévet, J. Caroff and R. Motais (France): Catecholamine release controlled by blood oxygen tension during deep hypoxia in trout: effect on red blood cell Na/H exchanger activity 81

J. F. Freidel and S. Javaheri (U.S.A.): Bumetanide and cerebrospinal fluid acid–base variables during acute CO_2 elevation 91

No. 2, February 1990

J. Yu and A. M. Roberts (U.S.A.): Indirect effects of histamine on pulmonary rapidly adapting receptors in cats 101

J. G. Martin, A. Wang, M. Zacour and D. F. Biggs (Canada): The effects of vasoactive intestinal polypeptide on cholinergic neurotransmission in an isolated innervated guinea pig tracheal preparation 111

L. Daristotle, A. D. Berssenbrugge, M. J. Engwall and G. E. Bisgard (U.S.A.): The effects of carotid body hypocapnia on ventilation in goats 123

D. C. Willford, A. T. Gray, S. C. Hempleman, R. W. Davis and E. P. Hill (U.S.A.): Temperature and the oxygen–hemoglobin dissociation curve of the harbour seal, *Phoca vitulina* 137

J. B. Cain, S. D. Livingstone, R. W. Nolan and A. A. Keefe (Canada): Respiratory heat loss during work at various ambient temperatures 145

S. F. Sun, T. S. Droma, J. G. Zhang, J. X. Tao, S. Y. Huang, R. G. McCullough, R. E. McCullough, C. S. Reeves, J. T. Reeves and L. G. Moore (China, U.S.A.): Greater maximal O_2 uptakes and vital capacities in Tibetan than Han residents of Lhasa 151

W. A. Janczewski and W. A. Karczewski (Poland): The role of neural connections crossed at the cervical level in determining rhythm and amplitude of respiration in cats and rabbits 163

E. D'Angelo and F. Bellemare (Italy, Canada): Electrical and mechanical output of the inspiratory muscles in anesthetized dogs 177

No. 3, March 1990

M. B. Prabhu, J. T. Mink, B. L. Graham and D. J. Cotton (Canada): Effect of a deep breath on gas mixing and diffusion in the lung 195

R. Naeije, J.-M. Maarek and H. K. Chang (U.S.A.): Pulmonary vascular impedance in microembolic pulmonary hypertension: effects of synchronous high-frequency jet ventilation 205

B. Pelster, H. Kobayashi and P. Scheid (F.R.G.): Buffering characteristics of eel blood at the extreme conditions in the swimbladder 219

H. Kobayashi, B. Pelster and P. Scheid (F.R.G.): CO_2 back-diffusion in the rete aids O_2 secretion in the swimbladder of the eel 231

R. Arieli (Israel): Can the rat detect hypoxia in inspired air? 243

K. Groebe and G. Thews (U.S.A., F.R.G.): Role of geometry and anisotropic diffusion for modelling P_{O_2} profiles in working red muscle 255

A. H. Sillau, V. Ernst and N. Reyes (U.S.A.): Oxidative capacity distribution in the cardiac myocytes of hypermetabolic rats 279

Corrigendum 293
